

PRESS RELEASE

For Immediate Release

Walk This Way With Wigwam® Holidays!

We're a nation of ramblers – and now Wigwam® Holidays, one of the UK's leading glamping accommodation providers, is part and parcel of enjoying the National Trails of England and Wales.

Sixteen National Trails criss-cross the English and Welsh countryside, covering an incredible 2,500 miles (soon to be 2,800 miles as additional sections of Trails are added). Around 80,000 people complete a National Trail each year, while around 83 million visitors make a National Trail part of their holiday.

Wigwam® Holidays have a presence at or close to most National Trails, and the glamping accommodation provider now has a direct contact which avid walkers can get in touch with to find more.

Faith Young, Marketing Assistant with Wigwam® Holidays, said: "The National Trails of England and Wales are a perfect partnership with the ethos of Wigwam® Holidays, which encourages great holidays in the great outdoors.

"Having walked and run sections of the Yorkshire Wolds Way, the Cleveland Way, Hadrian's Wall Path, the South West Coast Path and England's Coast Path, I know first hand the incredible beauty and diversity of the National Trails.

"What makes a National Trail even more attractive is knowing a Wigwam cabin is waiting for you at the end of your day's labours! Walking can be a demanding pastime, and aching feet and muscles need some pampering at the end of that day's mileage."

Anne Clarke of Walk Unlimited, responsible for the promotion of the National Trails, said: "National Trails are the best walks in the England and Wales. They are long distance walks but you don't need to be an experienced walker to enjoy them - there are lots of short walks and circular walks from the Trails that give you a real experience of the wonderful landscapes they pass through. They are perfect for a weekend break or a short holiday.

"We're delighted to be working with Wigwam® Holidays to encourage more people to explore these high quality Trails."
